***REASONS FOR ALLOWANCE***

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed 9/18/07 overcomes the technical deficiencies and the prior art rejection. Claims 1-2, 4-9, 11-21 and 24-29 are allowed because the prior art of record fails to suggest "a phase interpolator receives at least one of the respective pairs of the phases of the source clock and combines the at least one of the respective pairs of the phases of the source clock to generate the output clock signal which has at least one cycle being inserted into the source signal to operate at a second frequency that is greater than the first frequency" as combined in claims 1 and 12, and "a phase interpolator receives at least one of the respective pairs of the phases of the source clock and combines the at least one of the respective pairs of the phases of the source clock to generate the output clock signal which has at least one cycle being removed from the source signal to operate at a second frequency that is less than the first frequency" as combined in claim 26. In particular, the interpolator circuit of Hampel et al (US 2003/0117864) of record phase shifts the output clock to match the data but maintains the same frequency.

***CONCLUSION***

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

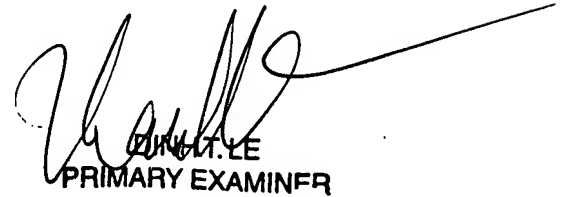

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DINH T. LE whose telephone number is (571) 272-1745. The examiner can normally be reached on Monday-Friday (8AM-7PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew N. Richards, can be reached at (571) 272-1736.
